SUMMARY

Recent Computer Information Systems graduate specializing in Software Design and Development. Experienced in frontend and backend development, with a focus on user-friendly web applications through academic projects and summer tech role. Eager to apply technical skills and creative problem-solving to a dynamic team in web development, web design, or software development. Willing to relocate for the right opportunity.

EDUCATION

Okanagan College - Kelowna

April 2024

Bachelor of Computer Information Systems

Major in Software Design and Development

GPA: 3.67/4.0; Dean's List 2023/2024

WORK EXPERIENCE

Business Tech Ninjas

May 2022 – August 2022

Jr. Technician, Web Designer

- Developed WordPress membership websites, wireframes, and prototypes to enhance user experience and functionality, contributing to an estimated 20% increase in user engagement.
- Implemented targeted marketing automation solutions for enhanced user engagement, resulting in an estimated 15% increase in conversions and improved customer satisfaction.
- Demonstrated expertise in WordPress website management, marketing automation, email writing, content creation, and troubleshooting technical issues.

CAPSTONE PROJECTS

Algorithmic Trading Software

September 2023 – April 2024

Full stack Developer, UI/UX Designer

- Developed a user-friendly web application with Bootstrap and JavaScript for configuring the trading system and securely exporting financial data, resulting in a streamlined user experience and enhanced data security, leading to positive feedback from users.
- Created efficient data acquisition, processing, and staging routines using Python and SQL to enhance data flow and integrity.

Flock Audio Web Application

September 2021 – April 2022

Frontend Developer, UI/UX Designer

- Developed a web application tailored for analog routing technology solutions within the professional audio applications domain.
- Constructed custom schematics and audio setups, integrating innovative solutions with Bootstrap-React.
- Contributed to enhancing the user experience and interface design of the application.
